## COURSE DESCRIPTION

The M.A. Economics program in ODL mode is designed for students who prefer independent, self-paced learning through structured study materials and limited on-campus requirements. The program provides in-depth knowledge of economic theory, quantitative methods, and policy-related subjects while allowing learners to study from their own location.

Students receive printed and/or digital self-learning materials prepared by subject experts, along with academic guidance through periodic counseling sessions and support services. The ODL format is suitable for students who may not have regular internet access or who prefer traditional reading-based learning combined with scheduled examinations.
